

Northern Red Rock Canyon National Conservation Area Trails Plan

The Bureau of Land Management (BLM) Red Rock/Sloan Field Office will host two workshops on Thursday, October 15 about the feasibility of developing a recreational, non-motorized, multi-use trail system through the northern portion of Red Rock Canyon National Conservation Area (Red Rock.)

The workshops will be held at the BLM office at 4701 North Torrey Pines Drive in Conference Rooms A, B and C. Two sessions will be held; one from 2 to 4 p.m. and the other from 6 to 8 p.m. Both workshops will be structured the same:

- First 30 minutes - open house format for map review and talking with project manager
- Next 10 minutes – presentation on current status of trails in northern Red Rock and feasibility study to develop trail system
- Following 30 minutes – attendees will split into two groups (one will identify and mark trail uses – i.e. mountain biking, equestrian, hiking, etc. -- on a map while the other will identify potential trailhead amenities on a map.) After 15 minutes, groups will switch maps/topics.
- Final 20 minutes – open house format to review maps revised during group work and talk with project manager

In June, workshops were held to gather public input on the feasibility of constructing a trail system in the northern portion of Red Rock, near State Route 157 and known in Red Rock Resource Management Plan as the Twilight Zone. Funding for the feasibility study was approved by the Secretary of the Interior through the Southern Nevada Public Land Management Act.

Materials available at the workshops will also be available on the BLM's website at: www.nv.blm.gov/redrockcanyon. For more information, please contact Lee Kirk at 702-515-5227 or jkirk@blm.gov.
